Paducah, KY 42003

Dear Classic Waxx:

Let me first apologize for not getting this to you sooner- but I wanted to thank you for your excellent music during our McCracken County WalkAmerica. So many people commented on how the music really added to the day's festivities and helped liven up the atmosphere. I personally found myself singing along to every song- that's my listening preference. I also had the pleasure of hearing you this past Saturday night downtown, and once again, you were great! Thanks again for taking time out of your busy schedules to help in our cause to fight premature births. You really helped make the day a great success! If there is ever anything I can do for you, please do not hesitate to call. Thanks again, and I hope maybe you'll consider joining us in 2005.

*Saving babies, together-*

Tom Dolan  
Division Director
